## An Identifier's Certificate must be completed for each applicant.

To satisfy the identity document requirements, you must produce original and current documents in one (1) of the following categories. A translation will be required for passport, driver's licence and birth certificates not in English.

You should produce category 1 identity documents, if these have been issued to you. If you do not have category 1 identity documents, then the document combinations in category 2 through to category 5 should be used.

Category 4 is for non-foreign nationals who are unable to satisfy the identity document requirements in category 1, 2 or 3 and category 5 is for foreign nationals residing in Australia who cannot meet the requirements of category 1, 2 or 3.

In the case where category 1 identity documents cannot be produced, you may need to produce a statutory declaration stating why you cannot provide the category 1 documents.

Except for foreign birth certificates, category 1 to 4 documents must be documents issued in Australia.
